RADIOFY CITY RAYON; EXTEND TELEPHONE, POWER LINES

CHERVENKOV RAYON IN SOFIA RADIOFIED -- Sofia, Vecherni Novini, 10 Apr 52

Loud-speakers have been installed on large squares, streets, gardens, and other public places in Chervenkov Rayon of Sofia. Establishments and enterprises of the rayon will be radiofied as soon as the Duilding of the Rayon Council of Workers' Deputies is radiofied. A rayon radio network is being created for radiofying housing blocks. This radio metwork will be equipped with its own transmitter and receiver. It will transmit the programs transmitted by national transmitters, as well as its own programs. All questions, information, and other material of interest only to persons living in Chervenkov Rayon will be transmitted by the rayon network through public loud-speakers and private receivers connected with the network.

VILLAGES ACQUIRE TELEPHONE CONNECTION -- Sofia, Vecherni Novini, 16 Apr 52

The following villages recently acquired telephone posts: General Kantardzhievo, Benkovski, Razdelna, and Ezerovo in Stalin Okoliya; Vasil'ovo in Teteven Okoliya; and Budashte in Stara Zegora Okoliya.

During the first 3 months of 1952, 23 Bulgarian villages acquired telephone connections and 38 kilometers of new telephone and telegraph lines were built throughout the country.

INCREASED FUNDS FOR INVESTMENTS -- Berlin, Aussenhandels Nachrichten, 26 Jan 52

For the construction of power plants alone, ll billion leva have ween provided in 1952. For Bulgaria's electrification and the development of heavy industry, a total of 30 billion leva has been set aside.
